PRESIDENTIAL PARTY IN BOAT COLLISION

Light House Tender and Fruit Laden Steamer Collide.

ROOSEVELT WAS NOT INJURED

While the Government Boat Was Conveying the President to the Place Where the Cruiser West Virginia Was Stationed, Accident Occurred.

New Orleans, Oct. 28.—After a narrow escape from losing his life in an early morning collision in which the light house tender Magnolia, on which he was traveling, was so much disabled that he had to abandon her president, Roosevelt is now safe on the revenue cutter Ivey, which is carrying him to the armored cruiser West Virginia. The president nor any member of his party injured in the accident.

Details of the accident are not complete, but immediately it ocurred, aurorders were received at Pilot Town where the revenue cutter Ivey was lying to proceed at once to the scene and take the president and his party on.

The Ivey passed Pilot Town with the president on board at 8:15 on her way to the West Virginia. She was then within an hour and a half of reaching the cruiser's side.

The first news of the accident reached New Orleans by telephone at an early hour this morning, coming in the shape of an appeal for help from Captain Rose, of the United Fruit company's steamer Esparta, which was the vessel reported in collision with the Magnolia.

Captain Rose gave no details except that the boats had struck each other, that the president was uninjured and that the Esparta might have to take the president aboard and carry him to the mouth of the river.

The message came from Nairn, La., from which point the accident occurred. The Magnolia left here at 6:30 last night and the Esparta was due to arrive today at Chalmette. The weather was fine, with comparatively little wind on the river. In his report Captain Rose gave no details of the accident, but said that the Magnolia was ashore.

Immediately upon the receipt of the communication was opened with owners here and the powerful tugs J. Wilmot and D. D. Wood left New Orleans shortly after 4 o'clock this morning with orders to go at full speed to the scene of the accident.

In the meantime, however, the president's party had managed to get in communication with the lower part of the river before it was known that a revenue cutter Ivey was lying. At 1 o'clock the operator at Pilot Town was running down by Major Craighill with orders that the Ivey should be sent to a sixty-mile point with all possible speed. The Ivey got immediately under way and proceeded forty miles distance in rapid time.

President Roosevelt, Secretary Loeb and Surgeon Rixey, with the baggage and mail, at once transferred and the Ivey proceeded down the river.

At 8:15 the Ivey passed Pilot Town on her return, signalling that the president and party were on board, and that all were well.

The cruiser West Virginia was lying about a mile and a half off the passes, and the Ivey was expected to reach her side about 9:45. The West Virginia is equipped with wireless telegraph and has been in communication with the wireless station here. The fact that the president's transfer to the cruiser will be reported as soon as he is safe on board the cruiser.

At 9 o'clock, the Ivey with the presidential party reached Port Eads with President Roosevelt and his party on board. The cutter did not stop, but immediately passed out into the gulf. The West Virginia was in plain view and the cutter quickly covered the distance separating the two vessels and as the Ivey approached a presidential salute sounded from the warship. The transfer of the traveler after the long journey from the city was a matter of but a few minutes, the work being fine and clear with little sea running. At 9:40 the president stepped on board the West Virginia safe and sound, after his strenuous experience here and on his trip down the river.

The West Virginia had lifted her anchors and before 10 o'clock had started on her journey up the coast.

YELLOW FEVER SITUATION.

Two New Cases and Two Deaths at New Orleans, La.

New Orleans, Oct. 28.—Two new cases and two deaths from yellow fever was reported up to noon today.

Little interest was today displayed in the fever situation, all attention being attracted to the news of the accident to the tender carrying President Roosevelt.

Further advices of opening the quarantine continue to come and it is considered probable that the few bars will remain after Nov. 1. There is a steady revival of business, not only in the city, but in all the surrounding country.

The end of the week is expected to see the withdrawal of most of the forces under Surgeon White. Dr. White is to remain here indefinitely.

One New Case at Natchez.

Natchez, Miss., Oct. 28.—Forty refugees reutrned this morning. Ten patients still remain under treatment. One new case, a scarlet woman, was reported this morning.

LIVES MENACED BY EXPLOSIONS

Firemen Bravely Fought and Subdued Flames Amid Great Danger.

New York, Oct. 28.—In momentary danger of being killed or maimed by the frequent explosions, the firemen fought early this morning, one of the worst fires for weeks and which destroyed the six-story buildings at No. 18 and No. 20 DesBrosses street, occupied by the Crown Cordial and Extract company and others.

The loss is estimated at $200,000. As the firemen were raising the ladders, the reports of the explosions of the alcohol and spirits stored in the building were almost constantly.

Every few minutes a heavier explosion like the report of a 12-inch gun would rock the entire building. The occupants of the building included the Baxter Manufacturing company, the Thompson Petit Manufacturing compa. by B. A. Van Horn, a manufacturer of cut-glass, and Julius Cohen's California Essential and Distributing company. The last two firms were completely burned out.

TO DESTROY THE BOLL WEEVIL.

Cotton Protecting Kelep of Guatemala, Will Check Pest Ravages.

Washington, Oct. 28.—Announcing the results of the recent investigations of the future of the cotton protecting kelep of Guatemala, a report now being issued from the department of agriculture declares kelep to be wonderfully adapted to the destruction of the cotton boll weevil and portrays its possibilities in checking pest ravages.

"It is," the report says, "a new and efficient insectiverous animal in all probability capable of use for protection of cotton and other crops in many tropical and sub-tropical regions, whatever may be the ultimate results of the present effort to naturalize it in Texas."

The report adds: "It is still impossible to protect the fee in a new country of an insect which has so recently become an object of scientific study but it seems certain that the social organization of the species does not disqualify it for a future of agricultural utility."

Life Imprisonment for Negroes.

Atlanta, Oct. 28.—The last of the negroes who were charged with participating in the riot which occurred on a Southern railway excursion train between Atlanta and McDonough, were convicted in the superior court of Henry county, Judge Freeman presiding for Judge Reagan. Aurelius Hall, Cleve Bolton and Bob Cochran were sentenced to life imprisonment in the state penitentiary on the charge of murder. They were the three leaders in the riot, and the sentence is given all the trouble was attributed.

ORDER SOLDIERS TO SHOOT DISTURBERS

Russians Are Warned to Refrain From Rioting.

SITUATION DOES NOT IMPROVE

The Strikers in St Petersburg and Other Cities Seem To Be Quiter Than Usual, but the Authorities Fear an Outbreak at Any Moment.

St. Petersburg, Oct. 27.—1:30 p. m.—Warnings to the people that in case of disorder the soldiers will fire ball cartridges are posted on every street corner today. The city is calmer on the surface under the rigorous measures adopted. General Trepoff in order to restore confidence, directed all shopkeepers to take down the boards from their shop windows during the night and this morning the city awoke to find the shops re-opened.

Little squads of soldiers are scattered along the streets and in the markets to preserve order. Even detachments of the crack guards are doing patrol duty. Nevertheless beneath the surface there is much excitement. The revolutionists have spread the tidings that a revolution has begun, and the city is filled with the wildest rumors. For example, a story is afloat that a provisional government has been established. Better classes are afraid to venture out. Many meetings have been held during the night.

At a meeting of delegates from the profession unions, comprising doctors, druggists and lawyers, it was decided to strike from Oct. 28 until a constitutent assembly is summoned.

The latest advices from Minsk, and Saratoff, are disquieting. With a single exception newspapers of Kieff have declared in favor of a strike. All the drug stores in Saratoff are closed and that town is without artificial light, and no newspapers are appearing. The Saratoff town council has organized a committee for the protection of the citizens. The street cars in St. Petersburg have ceased running, and the express employes of the bureaus of ways and communication and even the bank and office employes, have agreed to affailiate themselves with the movement. The printers have resolved upon a unique demonstration to voice their demand for a free press. They have decided not to print a single regular newspaper tomorrow but instead to publish clandestinely an uncensored paper for distribution by the workmen containing the demands of the proletariat for a constitutional assembly.

Just when reports were abroad that freedom of assembly would be granted a bad impression has been created by the publication of the Official Messenger of a belated set of "temporary" regulations, three columns in length, dealing with the right of assembly, which will require from three to seven days' notice to the police of the object of the meeting with the names of the speakers, etc. Then if permission is granted, the police are empowered to close the meetings if opinions are uttered which are supposed to threaten public order.

The news from the interior is meager. The situation has not improved. According to reliable reports the troops attacked Herioff, settled with the students and others. In many places the schools are closed. The high school girls of Poltoff walked out this morning.

The Russ, leading organ of the Constitutional party declares that power will not satisfy the people unless the people are given control. Only absolutely solid guarantees for the future, the paper declares, can now avail to reassure the people that the czar will not repeal the measures.

Telegraphic Communications Severed.

Warsaw, Oct. 28—Telegraphic communication between Warsaw and St. Petersburg, Moscow and Berlin was severed today in consequence of a fire in the telegraph office, caused by the using of electric wires.

The strike is in full swing at the factories here and the railways are tying the employers of the banks and insurance and commercial houses to leave their work. The shops are still open. The workmen are holding meetings without interference on the part of the police.

Warsaw in Flames

Thorn, Prussia, Oct. 28.—A message from a reliable source in Warsaw received here today says that an incendiary fire which started there last night has not been extinguished and that one part of the city is in flames.

Street Car Employes Srike.

Lodz, Russian Poland, Oct. 28.—The employes of all the local factories and street car lines, including the suburban lines, have all struck.

MAN CHARGED WITH BIGAMY.

Marries Woman Without Securing a Legal Separation from First Wife.

Montgomery, Ala., Oct. 28.—W. M. McCullom and Ada Belle Moore, the latter claiming Atlanta as her home are in a bad fix at the office of the sheriff.

They have been brought back from Mobile on a charge of bigamy on the part of the man. It seems that they were married several days ago at the home of the woman here. They left at once and wife No. 1 sent for the police. A warrant was sworn out and a move made to catch them, which resulted in success.

When brought back McCullom admitted that he had not secured a divorce from his wife, but said that they had not been living together and he thought that he had provided for the legal side of it. The woman says she knew nothing of the other woman and went into the matter blindly.

McCullom said he was once divorced from his wife, but later, while drinking, went back and induced her to marry him again. He, as well as the woman, claims Georgia as his home.

DRUNKEN MAN KILLS WOMAN.

Conductor on Street Car Shoots at a Man but Bullet Went Wild.

Savannah, Ga., Oct. 28—E. A. Moore a conductor for the Savannah Electric company, in a drunken rage Thursday afternoon, drew a revolver of heavy caliber and opened fire upon C. R. Seckinger, a passenger, aboard his car. One bullet struck Mrs. Leila Wheeler, wife of F. F. Wheeler, as she sat on the steps to her home, No. 207 Broughton street, east. The bullet entered her jugular vein, severing it and three minutes after she was struck she was dead.

Seckinger received another bullet in the leg, above the knee. He was taken to the hospital. Mrs. Jane E. Fairchilds sustained a broken shoulder in jumping from the car.

Several others were bruised through the precipitancy with which they left the car when the bullets began to fly.

Moore is in the police barracks charged with murder.

Negro Assailant Still at Large.

Atlanta, Oct. 28.—Between 80 and 100 men, headed by George Moore and his sons, Cliff and John, County Policemen Cheshire, Matthewson and Walters, and Tom Donaldson, the latter with his dogs, are now following a trail along Nancy creek, two miles from Buckhead, and four miles from the Moore home. All that swamp has also been examined carefully. The posse, fully armed and mounted, left the Moore home before day. At sunrise the dogs bayed someone on Nancy creek, and struck the trail. It is believed now that this is the correct trail, and that the negro will be found somewhere in this neighborhood.

No Indications of Conciliation

Chicago, Oct. 28.—The rival interstate commerce law conventions resumed sessions in Steinway hall and Studebaker hall today without much if any indications of a conciliatory spirit. On the contrary the individual discussion of the matters which had divided the delegates and which brought about the split yesterday, appeared only to intensify the bitterness. All prospects of consolidation of the two conventions seemed to have vanished.

NORWEGIAN THRONE REFUSED BY SWEDEN

King Oscar Will Not Allow His Son to Ascend It.

WRITES LETTER TO STORTHING

Stating that He Believes It To Be for the Best Interest of Both Norway and Sweden that All Connections Be Entirely Severed

Stockholm, Sweden, Oct. 28.—King Oscar has definitely and formally declined the offer of the Norwegian throne to a prince of the house of Bernadotte, and in a letter to the president of the storthing finally severs his connection with Norway. The letter, which is dated Oct. 26, is as follows:

"After having, in the name of Sweden, recognized Norway as a state completely separated from Sweden, I inform you of my decision to relinquish the crown of Norway which, notwithstanding all my good intentions, has given me in the course of years to many bitter cares. Moreover, I could no longer wear it to the benefit of the country, now that the illegal decision of the storthing has rendered illusory, even the supensive veto of the king; but I desire on the welfare of the country and the nationa towards which I have entertained a sincere affection ever since my youth and to the happiness of which it has always been my heart's desire to contribute so long as the means at that end could be reconciled with the duties entailed by my position as king of both countries of the Scandinacian peninsula. In view of the turn the mutual relations between the two countries have taken, I cannot think it would be conducive of the happiness of either Sweden or Norway that a prince of my house should accept an election to be king of Norway. Assuredly there would not fail to arise in both countries a feeling of distrust which would operate as much against him as against me. This distrust might only too easily become an obstacle to the improvement of the mutual sentiments of the two nations, unfortunately separated henceforth, whereby I hope to see pacific relations assured between them in a not too distant future. I cannot, therefore, accept the storthing's offer. I thank you all with all my heart, and who, during my reign have faithfully served me and Norway, and who may even now entertain kindness for their former king. Bidding them farewell, I cherish sincere good wishes for them."

GOVERNMENTAL INSURANCE.

Question is Being Discussed as to Its Probability.

Chicago, Oct. 28.—A dispatch to the Tribune from Washington says:

"Shall the United States government go into the insurance business?"

This question was asked with a good deal of force at the opening of congress. Individual representatives from different districts, including widely separated sections of the country, have indicated their intimation to introduce bills regulating life insurance and even fire insurance business. Inquiries have been made of the bureau of corporations at the department of commerce and labor and other investigators have been studying methods in the office of comptroller of the currency.

There will be a number of bills introduced at the opening of congress which will sweep away all intermediate steps and will provide that the United States government shall go into the life insurance business and into the fire and marine insurance business as well if such a thing be possible.

Sun Spots Have Disappeared.

San Jose, Calif., Oct. 28.—The Rev. Father Jose Richard, the Santa Clara college astronomer, announces that the group of sun spots under observation for the past few weeks have disappeared. He predicts its reappearance on the eastern rim of the sun. These spots differ from the previous appearances in that it is a single spot, not a group.

COTTON GROWERS HOLDING STAPLE

Notwithstanding a Short Crop, Buyers Paying But Little.

THE PLANTERS WILL COMBINE

Will Come Together in Alachua Next Thursday for Purpose of Forming a Protective Association—Georgia and Florida Will be Represented.

Notwithstanding the fact that the production of cotton in the long staple or Sea Island belt is reported to be one-third short this season, it is also a fact that prices are lower for the staple than for several years. This condition of affairs should not exist, and the scarcity of cotton should have a tendency to increase rather than decrease the price.

It is intimated that the buyers have combined in an agreement on prices, although no one will venture to authenticate the statement. One gentleman from Alachua stated Saturday that a great deal of the cotton in that section is being held for better prices, and as a rule those holding the same have the advantage, in that they are not compelled to sell until the buyers decide to pay the prices asked. In the majority of cases the only growers selling are those who are under contract.

There has been ginned at Alachua so far this season about 1,100 bales, against 1,400 for the same period last year. The highest price paid so far this season, it is said, was eighteen cents, and the buyers have offered as low as fifteen cents per pound.

The long staple growers of Georgia and Florida expect to hold a meeting in Alachua on Thursday, November 2, when a protective association will be formed. The growers realize that the time has come when they must combine, if they expect to continue the cultivation of cotton to any financial advantage.

MR. ORR IS PLEASED.

Thinks Gainesville and Gainesville People Are "To the Good."

M. Judson Orr and family, who recently arrived in the city from Newburg, W. Va., are temporarily located at 400 West Mechanic street, where they will remain until Mr. Orr can secure possession of the property recently purchased, known as the Graham place, on the rock road, opposite the State University grounds.

Mr. Orr is very much impressed with Gainesville and its people, and goodnaturedly expresses himself that they are "to the good." He was here for a short time last winter, and was so well pleased that he purchased property. "I have traveled considerably throughout the country," he remarked Saturday. "I have visited many towns and cities, and if I did not believe Gainesville, from every standpoint, was about the best I have seen, I would not have my family here now."

Mr. Orr is a prominent man politically, and for years was chairman of the Republican executive committee of his county. Speaking of his departure The Preston Leader, published at Kingwood, W. Va., devotes over half a column, and in that portion which will be of interest to the people of this section says:

"M. Judson Orr and family of Newburg left Kingwood on Sunday evening for Terra Alta, where they remained until Monday, when they departed over the B. & O. for Gainesville, Florida, their future home.

"Mr. Orr was down there last winter and was so well pleased with the Sunny South that he purchased property and decided to cast his lot with the Southern people amid perpetual flowers."

Death of a Good Man.

Robert Henson of Hawthorn, eighty years of age and one of the most widely known and highly respected citizens of the East End, died at his home on Thursday and was buried on Friday.

Deceased was a veteran of the Civil War, having served the Confederate cause faithfully and efficiently. He was a member of the Methodist church, and possessed of a generous, Christian character. He has been a resident of Hawthorn for nearly half a century, and his demise is regretted by a large circle of friends.

INJUNCTION WAS DISSOLVED.

Case of Seaboard Air Line vs. Southern Bell Has Been Dismissed.

The Sun contained a day or two recently an article to the effect that the Seaboard Air Line had caused to be issued a bill of injunction against the Southern Bell Telephone and Telegraph Company, restraining that company from crossing the plaintiff's tracks with its lines at Starke.

Attorney Evans Haile, who represented the Southern Bell Company in the premises, stated Saturday that the injunction had been dissolved and the case dismissed.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." Negress and Children Cremated.

Asbury Park, N. J., Oct. 28.—The bodies of Isabelle Spivey, a negress aged 34 years, and her three children, aged 10, 7 and 3, two girls and a boy respectively, were found in the burned ruins of their shanty under such circumstances as to lead the authorities to suspect that the two little girls were killed before the fire started. Coroner Bennet, after an investigation, said he could not find the slightest reason to suspect foul play. The woman he says, apparently went to sleep and accidently overturned the lamp. The fact that the skulls of two of the children were crushed in accounted for by the firemen walking on them. The bodies were discovered in a sodden mass of debris.

LARGE ORDER FOR FREIGHT CARS

New York Central Orders 25,000, Which Are To Cost $25,000,000.

Newport, R. I., Oct. 28.—The New York Central railroad placed orders yesterday with several manufacturing companies for a total of 25,000 freight cars, calling for the expenditures of $25,000,000, says the Times.

This order exceeds that placed last week by the Pennsylvania railroad for 21,000 cars, which, until yesterday, was the largest order for equipment placed by a railroad in this county. The orders placed yesterday are for delivery all through the year 1906. These orders, it is said, do not represent the total of the Central's requirements. In all probabilities more cars will be provided for today. Contracts for this record-breaking amount of equipment were let yesterday by Vice President Brown, of the New York Central. The equipment will be divided between the New York Central itself and the Lake Shore and Michigan Southern. None of it is intended, so far as known, to the manufacturers for the Vanderbilt lines west of Chicago. Except the cars ordered from the pressed steel company, the order calls principally for wooden cars of the gondola and box varieties.

A Novel Hospital Car.

Chicago, Oct. 28.—An especially designed hospital car of the Southern Pacific railway which was on exhibition at the Rock Island station yesterday, contains an operating room equipped with all appliances such as can be found in the most modern hospital. The car is equipped with a dietary kitchen to be used when the car is leased for the transportation of an invalid. Another novel feature is the arrangement of berths. When not in use these berths are sunk into the floor, leaving the entire floor space in the main section of the car free with movable chairs for seats.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Sued for Leading Mob.

Cincinnati, O., Oct. 28.—A sensational suit, the echo of the lynching of William Thacker, at Flemingsburg, Ky., in 1903, was filed in the federal court of Covington yesterday by Mrs. Mary Thacker, the widow. She is suing George Gordon and other citizens of Flemingsburg for $50,000 damages for mobbing her husband, who had been indicted for the killing of the son of Gordon. In the affidavit some sensational allegations are set forth. The most sensational charge is the one made by Thomas Wallingford that an arrangement existed between the mob and the jailer, Morris, to get the keys.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by all druggists.

Cunliffe Pleads Guilty.

Pittsburg, Oct. 28.—Edward G. Cunliffe, the Adams Express robber, went into court and pleaded guilty to two charges of larceny, representing a theft of of $100,000. Sentence was suspended until Saturday. Cunliffe's action caused much surprise, as neither the Adams Express company nor the Pinkerton detective agency were represented in court. He has no counsel and the belief is growing that Cunliffe is mentally unbalanced.

Manufacturing Plant Burns.

Connersville, Ind., Oct. 28.—The plant of the Central Manufacturing company burned this morning. Loss $50,000. The company manufactured bodies for automobiles and buggies. A large amount of partly finished material was burned.

CATARRH THE PLAGUE OF WINTER

Every Catarrh sufferer dreads the return of cold weather, for at the first cold breath of the season this plague of Winter is fanned into life with all its miserable symptoms. The nostrils are stopped up, and a constant dropping of mucus back into the throat keeps up a continual hawking and spitting, the patient has dull headaches, ringing noises in the ears and a half sick, depressed feeling all the time. Every inner lining and tissue of the body becomes inflamed, and secretes an unhealthy matter which is absorbed into the blood and distributed to all parts of the body, and the disease becomes constitutional. The catarrhal poison brings on stomach troubles, affects the Kidneys and Bladder, attacks the soft bones of the throat and head and if not checked leads to Consumption. A disease so deep-seated and dangerous cannot be washed out, neither can it be smoked away. Sprays, washes, inhalations, etc., are useless, because they only reach the membranes and tissues, while the real cause of the disease is in the blood. S. S. S. cures Catarrh because it attacks it through the blood; it goes into the circulation and drives out all unhealthy accumulations and catarrhal matter, and when this is done every part of the system receives a supply of rich, pure blood. Then the inflamed membranes and tissues heal, all discharge ceases, the depressed feeling of the body is relieved, and every symptom passes away. S. S. S. goes to the very root of the trouble, and by purifying and enriching the blood and building up the entire system, cures Catarrh permanently. If you have Catarrh do not waste time with local remedies, but begin S. S. S. and write for our book and any medical advice without charge.

PARK STOCK COMPANY

Will Open a Week's Engagement in This City on Monday.

The Chas Park Theater Company, which pleased the people so well when here last February, will open a week's engagement on Monday night. In speaking of this company The Fitzgerald (Ga.) Enterprise says:

"The Park Stock Company will close their present engagement in this city tonight, when they will put on that interesting drama, "In Darkest Russia." They have played to crowded houses every night this week, and would continue to do so if they were to remain a month, as the members of the company are artists and give high-class entertainments. It is to be hoped that Manager Park will arrange to visit Fitzgerald again at an early date, and if he does he may rest assured of a hearty welcome from our citizens."

THE YELLOW FEVER.

Only a Few New Cases at Pensacola and New Orleans.

Pensacola, October 28.—Three deaths and three new cases is the noon record. The weather continues cool and a low record is looked for tonight. The situation as a whole is encouraging.

Pensacola again showed nine new cases for the twenty-four hours ending at 6 o'clock last night and two deaths. The work of the fumigating corps is progressing nicely.

At New Orleans.

New Orleans, October 28.—Less than thirty cases of yellow fever are now under treatment in this city, and most of them are mild. Today one new case was reported up to noon, with one death. Yesterday there were two new cases and four deaths. Total number of cases, 3,884; total number of deaths, 444.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

COTTON GROWERS HOLDING STAPLE

Notwithstanding a Short Crop, Buyers Paying But Little.

THE PLANTERS WILL COMBINE

Will Come Together in Alachua Next Thursday for Purpose of Forming a Protective Association—Georgia and Florida Will be Represented.

Notwithstanding the fact that the production of cotton in the long staple or Sea Island belt is reported to be one-third short this season, it is also a fact that prices are lower for the staple than for several years. This condition of affairs should not exist, and the scarcity of cotton should have a tendency to increase rather than decrease the price.

It is intimated that the buyers have combined in an agreement on prices, although no one will venture to authenticate the statement. One gentleman from Alachua stated Saturday that a great deal of the cotton in that section is being held for better prices, and as a rule those holding the same have the advantage, in that they are not compelled to sell until the buyers decide to pay the prices asked. In the majority of cases the only growers selling are those who are under contract.

There has been ginned at Alachua so far this season about 1,100 bales, against 1,400 for the same period last year. The highest price paid so far this season, it is said, was eighteen cents, and the buyers have offered as low as fifteen cents per pound.

The long staple growers of Georgia and Florida expect to hold a meeting in Alachua on Thursday, November 2, when a protective association will be formed. The growers realize that the time has come when they must combine, if they expect to continue the cultivation of cotton to any financial advantage.

MR. ORR IS PLEASED.

Thinks Gainesville and Gainesville People Are "To the Good."

M. Judson Orr and family, who recently arrived in the city from Newburg, W. Va., are temporarily located at 400 West Mechanic street, where they will remain until Mr. Orr can secure possession of the property recently purchased, known as the Graham place, on the rock road, opposite the State University grounds.

Mr. Orr is very much impressed with Gainesville and its people, and goodnaturedly expresses himself that they are "to the good." He was here for a short time last winter, and was so well pleased that he purchased property. "I have traveled considerably throughout the country," he remarked Saturday. "I have visited many towns and cities, and if I did not believe Gainesville, from every standpoint, was about the best I have seen, I would not have my family here now."

Mr. Orr is a prominent man politically, and for years was chairman of the Republican executive committee of his county. Speaking of his departure The Preston Leader, published at Kingwood, W. Va., devotes over half a column, and in that portion which will be of interest to the people of this section says:

"M. Judson Orr and family of Newburg left Kingwood on Sunday evening for Terra Alta, where they remained until Monday, when they departed over the B. & O. for Gainesville, Florida, their future home.

"Mr. Orr was down there last winter and was so well pleased with the Sunny South that he purchased property and decided to cast his lot with the Southern people amid perpetual flowers."

Death of a Good Man.

Robert Henson of Hawthorn, eighty years of age and one of the most widely known and highly respected citizens of the East End, died at his home on Thursday and was buried on Friday.

Deceased was a veteran of the Civil War, having served the Confederate cause faithfully and efficiently. He was a member of the Methodist church, and possessed of a generous, Christian character. He has been a resident of Hawthorn for nearly half a century, and his demise is regretted by a large circle of friends.

The usual services will be conducted at the Advent Christian and St. Patrick's Catholic churches.

INJUNCTION WAS DISSOLVED.

Case of Seaboard Air Line vs. Southern Bell Has Been Dismissed.

The Sun contained a day or two recently an article to the effect that the Seaboard Air Line had caused to be issued a bill of injunction against the Southern Bell Telephone and Telegraph Company, restraining that company from crossing the plaintiff's tracks with its lines at Starke.

Attorney Evans Haile, who represented the Southern Bell Company in the premises, stated Saturday that the injunction had been dissolved and the case dismissed.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

Negress and Children Cremated.

Asbury Park, N. J., Oct. 28.—The bodies of Isabelle Spivey, a negress aged 34 years, and her three children, aged 10, 7 and 3, two girls and a boy respectively, were found in the burned ruins of their shanty under such circumstances as to lead the authorities to suspect that the two little girls were killed before the fire started. Coroner Bennet, after an investigation, said he could not find the slightest reason to suspect foul play. The woman he says, apparently went to sleep and accidently overturned the lamp. The fact that the skulls of two of the children were crushed in accounted for by the firemen walking on them. The bodies were discovered in a sodden mass of debris.

LARGE ORDER FOR FREIGHT CARS

New York Central Orders 25,000, Which Are To Cost $25,000,000.

Newport, R. I., Oct. 28.—The New York Central railroad placed orders yesterday with several manufacturing companies for a total of 25,000 freight cars, calling for the expenditures of $25,000,000, says the Times.

This order exceeds that placed last week by the Pennsylvania railroad for 21,000 cars, which, until yesterday, was the largest order for equipment placed by a railroad in this county. The orders placed yesterday are for delivery all through the year 1906. These orders, it is said, do not represent the total of the Central's requirements. In all probabilities more cars will be provided for today. Contracts for this record-breaking amount of equipment were let yesterday by Vice President Brown, of the New York Central. The equipment will be divided between the New York Central itself and the Lake Shore and Michigan Southern. None of it is intended, so far as known, to the manufacturers for the Vanderbilt lines west of Chicago. Except the cars ordered from the pressed steel company, the order calls principally for wooden cars of the gondola and box varieties.

A Novel Hospital Car.

Chicago, Oct. 28.—An especially designed hospital car of the Southern Pacific railway which was on exhibition at the Rock Island station yesterday, contains an operating room equipped with all appliances such as can be found in the most modern hospital. The car is equipped with a dietary kitchen to be used when the car is leased for the transportation of an invalid. Another novel feature is the arrangement of berths. When not in use these berths are sunk into the floor, leaving the entire floor space in the main section of the car free with movable chairs for seats.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Sued for Leading Mob.

Cincinnati, O., Oct. 28.—A sensational suit, the echo of the lynching of William Thacker, at Flemingsburg, Ky., in 1903, was filed in the federal court of Covington yesterday by Mrs. Mary Thacker, the widow. She is suing George Gordon and other citizens of Flemingsburg for $50,000 damages for mobbing her husband, who had been indicted for the killing of the son of Gordon. In the affidavit some sensational allegations are set forth. The most sensational charge is the one made by Thomas Wellingford that an arrangement existed between the mob and the jailer, Morris, to get the keys.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by all druggists.

Cunliffe Pleads Guilty.

Pittsburg, Oct. 28.—Edward G. Cunliffe, the Adams Express robber, went into court and pleaded guilty to two charges of larceny, representing a theft of of $100,000. Sentence was suspended until Saturday. Cunliffe's action caused much surprise, as neither the Adams Express company nor the Pinkerton detective agency were represented in court. He has no counsel and the belief is growing that Cunliffe is mentally unbalanced.

Manufacturing Plant Burns.

Connersville, Ind., Oct. 28.—The plant of the Central Manufacturing company burned this morning. Loss $50,000. The company manufactured bodies for automobiles and buggies. A large amount of partly finished material was burned.

CATARRH THE PLAGUE OF WINTER

Every Catarrh sufferer dreads the return of cold weather, for at the first cold breath of the season this plague of Winter is fanned into life with all its miserable symptoms. The nostrils are stopped up, and a constant dropping of mucus back into the throat keeps up a continual hawking and spitting, the patient has dull headaches, ringing noises in the ears and a half sick, depressed feeling all the time. Every inner lining and tissue of the body becomes inflamed, and secretes an unhealthy matter which is absorbed into the blood and distributed to all parts of the body, and the disease becomes constitutional. The catarrhal poison brings on stomach troubles, affects the Kidneys and Bladder, attacks the soft bones of the throat and head and if not checked leads to Consumption. A disease so deep-seated and dangerous cannot be washed out, neither can it be smoked away. Sprays, washes, inhalations, etc., are useless, because they only reach the membranes and tissues, while the real cause of the disease is in the blood. S. S. S. cures Catarrh because it attacks it through the blood; it goes into the circulation and drives out all unhealthy accumulations and catarrhal matter, and when this is done every part of the system receives a supply of rich, pure blood. Then the inflamed membranes and tissues heal, all discharge ceases, the depressed feeling of the body is relieved, and every symptom passes away. S. S. S. goes to the very root of the trouble, and by purifying and enriching the blood and building up the entire system, cures Catarrh permanently. If you have Catarrh do not waste time with local remedies, but begin S. S. S. and write for our book and any medical advice without charge.

PARK STOCK COMPANY

Will Open a Week's Engagement in This City on Monday.

The Chas Park Theater Company, which pleased the people so well when here last February, will open a week's engagement on Monday night. In speaking of this company The Fitzgerald (Ga.) Enterprise says:

"The Park Stock Company will close their present engagement in this city tonight, when they will put on that interesting drama, "In Darkest Russia." They have played to crowded houses every night this week, and would continue to do so if they were to remain a month, as the members of the company are artists and give high-class entertainments. It is to be hoped that Manager Park will arrange to visit Fitzgerald again at an early date, and if he does he may rest assured of a hearty welcome from our citizens."

THE YELLOW FEVER.

Only a Few New Cases at Pensacola and New Orleans.

Pensacola, October 28.—Three deaths and three new cases is the noon record. The weather continues cool and a low record is looked for tonight. The situation as a whole is encouraging.

Pensacola again showed nine new cases for the twenty-four hours ending at 6 o'clock last night and two deaths. The work of the fumigating corps is progressing nicely.

At New Orleans.

New Orleans, October 28.—Less than thirty cases of yellow fever are now under treatment in this city, and most of them are mild. Today one new case was reported up to noon, with one death. Yesterday there were two new cases and four deaths. Total number of cases, 3,384; total number of deaths, 444.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

In the Mayor's Court.

John McCray, Rex Ross and Richard Roberson, who were arrested by Marshal Pinkoson upon a charge of disorderly conduct—fighting—Friday, were arraigned in the mayor's court Saturday morning. After weighing the evidence, McCray was fined $2.50 and costs, while Ross and Roberson were discharged.

For using profane and abusive language Mary Ransome, colored, was fined $5 and costs.

SUNSTROKES.

Don't ever undertake to get rich by "bulling" a "bear" market, unless you have access to a life insurance surplus.

A fellow who was sentenced to Sing Sing for the seventh time was told by the judge that it was his "post-graduate term."

President Eliot of Harvard does not think President Roosevelt will be able to reform football. Yale can never play gently with Harvard.

The International Paper Company, although being obliged to face a reduction in the price of news print, will declare a very respectable dividend.

Some men are born infamous, some gradually lose their reputations, and some have their reputations taken away from them by committees of investigation.

According to Wm. E. Curtis, in The Chicago Record-Herald, Eastern tourists spend $25,000,000 in California every year, and right in the vicinity of Los Angeles, too.

The scientists claim now that there are 100,000 ants in a hill, instead of 400,000. This is the official census, and is not figured as the city directory man generally estimates it.

Since two negroes have been bleached out almost white after a six months' term in the Macon, Ga., jail, the black folks of that section are anxious to serve a term there.

A recent count shows that there are 10,000 millionaires in the world, more than half of whom live in this country. Still, we had supposed that Pittsburg alone had more than 10,000 of them.

IN THE RIGHT TIME.

The London Financial News, writing of the investigation of the life insurance companies, says that the chief result of the investigation, thus far, is to show that "graft permeates high financial circles quite as generally as it does the lowest class of political circles." It goes on to say that "it is probably a safe assertion that every large financial institution in New York would show the same amount of graft if an official Legislative committee could be appointed to investigate, with the same power as that now looking into insurance affairs; and in the case of railroads and similar corporations the entire situation is honeycombed with graft."

These are strong words to appear in one of the leading financial publications of Europe, says The Wall Street Journal. Such a foreign view as this of the administration of American corporations is most unpleasant to contemplate. If entertained generally in business circles in Europe, it would have a depressing effect upon the standing of American securities and credit abroad, were it not for the undisputed fact of the enormous prosperity of American business. The graft in our corporations, even though it may have gone as far as The London Financial News, has not gone so far as to unsettle the foundations and disturb the solvency of our business institutions. This fact it is necessary to reiterate time and again because it is the saving clause of the situation. The graft has been disclosed just in the right time.

DAILY AT LIVE OAK.

The last issue of The Suwannee Democrat, published at Live Oak, contains the following announcement:

"Beginning with Tuesday, November 7th, The Suwannee Democrat will begin the publication of a daily morning paper. Definite arrangements for the new publication have been made upon a scale and after a plan which will insure to this section of the State a daily paper in keeping with the development and progress of Live Oak. Every department will be carefully and comprehensively covered, and the greatest enterprise and care will be exercised in covering the local news field. The Daily Democrat will pursue the same policy it has followed in its efforts to assist in the growth and business and industrial development of Live Oak and Suwannee county. The new daily is to be under the same management as The Weekly Democrat, the only acquisition to the staff being Mr. J. O. LaFontisee, formerly city editor of The Florida Times-Union, who is to have charge of the news department of the daily and who is to give his best efforts toward making The Daily Democrat the best daily paper in the State outside of Jacksonville and the other larger cities of Florida. Mr. LaFontisee has had extensive experience in fields of this character, and is known as one of the most progressive and enterprising newspaper men in the State.

"The Daily Democrat is to be launched by its founders with a full degree of confidence that it will meet with cordial as well as material support from the people of Live Oak and Suwannee county."

Our sister city is one of the most wide-awake in the State, and the daily will no doubt be given a hearty support. Mr. J. O. LaFontisee, who is to have charge of the news department, is well known to the people of Gainesville, where he passed many years and served The Sun as city editor, in which capacity he proved himself one of the best and most persistent workers, possessing marked ability in that line. He has won his spurs by dint of tireless labor in the line of work in which he has been engaged, and we assure the people of Live Oak that they have one of the ablest newspaper men in the State at the head of The Daily Democrat.

May success attend the efforts of the new enterprise is the hearty wish of The Sun.

ALFALFA.

The sowing of alfalfa has taken hold of the popular mind in the South, at last. We receive many inquiries by mail about the planting of this valuable crop and many personal inquiries as we travel around attending the farmers' institutes; so we do not think we can write about it too often, in view of its value as a food for all stock. We do not advise any one to begin on a large scale, but do advise all to plant from one to five acres, according to their means and number of stock. There is no crop in that responds to thorough clean work and high manuring like alfalfa. To secure a good stand you must have fine tilth, and to make it grow ahead of the weeds and grass the first year, until the roots get a firm hold in the soil, it requires liberal quantity of highly ammoniated manure. Stable manure and cotton seed are the best; in absence of these use guano at rate of six hundred pounds to the acre broadcast. If your land is deficient in vegetable matter or humus, you can use the "nitro fixing bacteria," but in rich land this is unnecessary. The only good we can see of this bacteria, is to help secure a stand in depleted lands. To sum up concisely, break your land deep, put on your manure broadcast, then harrow until it is as smooth and as fine as an ash bank, then sow your seed, from 10 to 15 pounds per acre, and roll the surface well. This will nearly always insure you a good stand.

Sow in September for fall or in February or March for spring. Cut it every time it blooms, no matter how often. Many lose their stand by allowing it to go to seed. You can cut from four to five times a year, and the oftener the greater yield you will get. If you do not get a good stand let it remain and next season disk with a cut-away harrow, resow and roll again, and thus you can make the stand perfect. Our advice is to start at once and learn by experience all about growing this valuable crop. Prof. Spillman says at Union, Alabama, they raise $75 worth of pork from ten acres of alfalfa the first year. The best way is to cut it and feed green, but you can turn hogs upon it by putting rings in their nose. You can graze cattle upon it also if you do not allow them to run on it long at a time and to eat it down close. If they bite the crown out, which forms just above the ground, it will kill it.—Florida Fruit and Truck Grower.

MOZLEY'S LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

MOZLEY'S LEMON ELIXIR.

NOW FACING CRITICAL EPOCH.

Next Five Years Will Determine Who Will Dominate South America.

New York, Oct. 28.—"The United States is facing a critical epoch. The next five years will determine whether this country or Europe is to be the dominant force in South America.

Germany, England, France, Spain, even Holland and Belgium, are making tremendous efforts to capture the Latin-American market. Unless we change our attitude quickly, we shall wake up to find that we have been disstanced in the race."

John Barrett, United States minister to Colombia, who is now in this city, spoke thus at a reception given in his honor by the Ibero-American club last night.

"The question of American trade with the Orient," continued Mr. Barrett, "I consider of greatly less importance at the present time than that of either Argentine or Brazil.

"The hour is a critical one, and European countries recognize it.

"By establishing steamship lines and by sending out high-class consuls and confidential agents they are doing everything in their power to capture the trade supremacy. South American development will astonish the world, and it is very near."

One Dollar a Day for Life.

Chicago, Oct. 28.—A dispatch to the Record Herald from St. Louis, Mo., says that Mrs. Sarah J. Westervelt yesterday was awarded damages of $1 a day for the rest of her life estimated at 15 years, in her suit against the St. Louis Transit and United Railways companies for injuries received in a street car collision. She is 54 years old. Judge Barclay, before whom the suit was tried, figured with insurance actuaries and in his address gave the jury the estimate of the plaintiff's life term, which served as the basis of the verdict.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

Frick Locates in New York.

New York, Oct. 28.—Henry C. Frick has taken up a permanent residence in this city. He has brought his family from Pittsburg and is now living in No. 640 Fifth avenue, which he has leased from George Vanderbilt at a yearly rental said to be $50,000. It was said in Wall street yesterday that Mr. Frick's active interest in the affairs of the United States Steel corporation and the necessity for his continued presence in this city was the reason for his making New York his permanent home.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

TWO ARE KILLED IN WRECK.

Freight Trains on Southern Railway Meet With Serious Accident.

Anniston, Ala., Oct. 28.—Two men were killed in a freight wreck on the Mobile division of the Southern railway at Jenifer, Ala. The dead are:

Ed Munn, engineer.

—— Richards, fireman.

Both are white men, of Selma, Ala. One negro brakeman was badly injured and may die. Others received bruises and injuries.

The wreck was caused by northbound through freight No. 80 sidetracking on the extra in the siding.

Both engines were struck and wrecked with a large number of cars, and the wreck will not be cleared for 24 hours.

Passenger trains are being run over the Louisville and Nashville around the wreck, Anniston to Talladega, thence to Barclays over the Birmingham and Atlanta to their own tracks.

The dead men were brought here to be prepared for burial, and the company physician was sent from this place to the wreck. A large wrecking crew was sent from this place to clear the wreck. The dead men were well known over the division.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Want to Find Seller of Picture.

New York, Oct. 28.—A cable dispatch to The Herald from Milan says that the newspapers here state that a judge of Ascoli, Picono, has requested the Italian consul general in New York to take the sworn evidence of J. P. Morgan and of Dr. Rivers, secretary of the Metropolitan museum, with a view of discovering the original vender of the Nicolas IV cope which, it will be remembered, was purchased by Mr. Morgan and generously restored by him to Italy when he learned that it had been stolen.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

Sterling Morton, secretary of agriculture in Mr. Cleveland's second cabinet. Mr. Cleveland will return to Princeton Oct. 31.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. OUR NEW YORK WEEKLY LETTER

A Season of Gold and Dazzling Spangles—Gold Trimmed Hats, Blouses and Coats—Gold Buttons, Gold Girdles and Gold Interlinings—Circular Skirts the Newest Shape—Plateau Felts, Bent and Fluted.

By RENE DEVERAUX.

This is certainly a season of gold and glitter. Never before has there been so lavish an employment of gold and silver and sparkling spangles in the trimming of hats, wraps, gowns, coats and suits. Everywhere the most somber shades are lightened with a touch of gold.

Many of the long coats in dark blues and blacks are adorned with double rows of dull gold buttons. Soft evening wraps are piped with cloth of gold, effectively combined with velvet in black and rich shades, and embroidered trimmings and waistcoats, which the Directoire vogue has so much popularized, show through their designs glinting threads of burnished gold.

Hats of velvet and French felt are ornamented with bands of gold, some of the more dressy affairs for evening and theater wear showing a profusion of gold and silver roses.

Combined with tulle boas are tiny inner ruches of gold or silver, their narrow gold or silver streamers, two or three on each side, falling almost to the hem of the gown in front.

Through the meshes of lace robes, both black and white, shimmers a cloth

THE NEWEST CREATION IN A CIRCULAR SKIRT.

of gold interlining, and elaborate belts and girdles are fashioned of plain gold and embroidered stuffs in many new and fashionable weaves.

For dark cloth suits there are thickly embroidered bands in Persian effects through which metallic threads or a very fine gold cord is interspersed, and much of the chenille embroidery used for similar purposes is interwoven slightly with gold thread or has embroidered stitches in gold worked upon it.

One scarcely meets a child these days whose jaunty little coat or jacket is not fastened or trimmed with gold buttons and gold buckles.

Bodices and blouses made of piece lace dyed to match the shade of the velvet or cloth skirts with which they are to be worn are soft and becoming and easily made. With these, as well as with other costumes, gold girdles and gold stocks are exceedingly effective, adding a new note both striking and artistic.

In spite of such elaboration in trimmings, skirts as a rule are severely plain. Particularly is this true of the separate skirt for practical purposes. This skirt, which is becoming more and more popular, closely resembles an abbreviated riding habit. The smartest of these are fastened directly in front underneath a double stitched seam. A corresponding seam is down the center of the back, not a plait or a gather to be seen anywhere. Narrow hems, tailor stitched, usually finish these skirts at the bottom.

This same model was seen in a nearly invisible green and brown plaid. In plaids the circular sides are decidedly bias in effect, and the flare at the bottom is in graceful ripples. When one may find a skirt of this description of handsome material splendidly tailored ranging in price from $10 to $15, it seems a waste of time to consider making.

As the season advances, hats are becoming more and more bent and mashed, and wings, if possible, larger and more pointed. Felt plateaus are bent in every conceivable shape, rippling around the face or turned up all around in many little flutes and angles. As a trimming for these, velvet is used extensively, exceedingly high bandeaus and high pointed wings making a chic and attractive ensemble. Such hats may be bent to fit any head or made becoming to almost all faces.

HOSIERY.

"Learn to do some one thing better than any one else has ever been able to do the same thing, and, though you live in a wilderness, the world will beat a path to your door."

In the little town of Chemnitz, in Saxony, there lived a chemist who spent years trying to do one thing—to make a black stocking that would be absolutely fast black.

This chemist succeeded, and the path the world beat to his door is very wide and well worn indeed. By his discovery Louis Hermsdorf made himself world famous, and his little town of Chemnitz became the center of the stocking industry of the entire world.

You don't have to look very far back to remember the time when to wear a black stocking was to wear a stocking that would fade, that would discolor the feet. Hermsdorf Dye changed all this, yet in the last few years many of us have forgotten our former stocking troubles and are accepting the many cheap imitations of Hermsdorf Dye with which the market is being flooded.

It is true economy to be very careful in buying black stockings.

MACY'S representative goes to Chemnitz each year to buy the original Hermsdorf Dyed Stockings, made in Chemnitz.

These stockings, bought almost a year in advance, are made to our special order in Chemnitz, and each stocking is dyed by the original Hermsdorf process, and each one is guaranteed absolutely fast black. It is needless to say that MACY'S stocking department is famous.

In order to get these stockings at the very lowest prices we buy them in enormous quantities, thousands of dozens at a time. To get a still further reduction in price we actually pay for these stockings before they are made. (This is an example of MACY'S Business Methods.)

So, after adding our customary small margin of profit, we can sell you the original Hermsdorf Dyed Stockings, made to our special order in Chemnitz, for a little less than other dealers ask you for the domestic imitation kind.

Postage on stockings is about 10 cents per half dozen pairs.

Insomnia and Indigestion Cured.

"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months, when I used Chamberlain's Stomach and Liver Tablets and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by all druggists.

The Hapsburgs and the Raven.

The Hapsburgs have a horror of the raven, which, says the London Tatler, has always been a veritable bird of evil to the house. When the Emperor Francis Joseph accepted the Austrian crown a flight of ravens passed over Olmutz and sent a shiver through his supporters. Before the ill fated Maximilian started for Mexico a raven followed him and his wife through the grounds of their castle of Miramar and fluttered on to the princess' train. When King Alfonso's mother, then an archduchess, left her native country for Spain a raven escorted her to the railway station. More remarkable still, a huge raven flew into the face of the Empress Elizabeth the day before she was murdered at Geneva.

Cures Chills and Fever.

C. W. Wirt, Nacogdoches, Texas, says his daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it. 50c. Sold by W. M. Johnson.

THE PORTUGUESE SONNETS.

Elizabeth Barrett Browning's Gift to Her Husband.

It was during their residence in Pisa, early in 1847, that Browning first saw the "Sonnets From the Portuguese," as the poet Edmund Gosse has told by authority of Browning himself. "Their custom was, Mr. Browning said, to write alone and not to show each other what they had written. This was a rule which he sometimes broke through, but she never. He had the habit of working in a downstairs room where their meals were spread, while Mrs. Browning studied in a room on the floor above. One day early in 1847, their breakfast being over, Mrs. Browning went upstairs, while her husband stood at the window watching the street till the table should be cleared. He was presently aware of some one behind him, although the servant was gone. It was Mrs. Browning, who held him by the shoulder to prevent his turning to look at her and at the same time pushed a packet of papers into the pocket of his coat. She told him to read that and to tear it up if he did not like it. And then she fled again to her own room." All this was in fulfillment of prophecy, for had she not said in her letter of July 22, 1846, as much as this about the "Sonnets:" "You shall see some day at Pisa what I will not show you now. Does not Solomon say that 'there is a time to read what is written?' If he doesn't, he ought."

Browning, notwithstanding his intense love of privacy, took the right ground concerning these works of inimitable art. "I dared not reserve to myself," he said, "the finest sonnets written in any language since Shakespeare's." Mrs. Browning finally consented to their being printed under Miss Mitford's care as "Sonnets by E. B. B.; Reading; Not For Publication; 1847," and in the edition of her poems brought out in 1850 they were actually published with their present title, which was suggested by her husband. The author's suggestion had been "Sonnets Translated From the Bosnian," but Browning, who called the author of "Catarina to Camoens" his "own little Portuguese," named the title that prevailed.—Century.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

Many of the ese who came had never been more fifty or a hundred miles from their hplaces, and to be landed alone in haing, roaring, booming San Francis- was confusing even to people with- pigtails. At first there was but one iety, and when a ship came in the iety sent wagons to take the immi- nts and their baggage to Chinatown, re they were supplied with a room, ter and wood for a month or two til they found work. This took ney, which was supplied by volun- y subscriptions and voluntary taxes. en a rule was made whereby every inaman leaving the United States s required to contribute an amount ich has varied from $6 to $20.

t first the president of the society s chosen for an indefinite term, but the Chinese increased and different ns were represented jealousy ap- ared. No clan was willing that a mber of another clan should be sident for life. It was not long be- re there were six different societies companies representing the most pulous clans. They were called and e still known as the Sam Yup, Yung Yo, Kong Chow, Ning Yung, Hop We nd Yan We.

From a small beginning the Six Com- nies have become a wealthy organi- tion with a large surplus on hand, hich is constantly increased by in- stment. Their disbursements are rrespondingly heavy. They spent 00,000 testing the constitutionality of e Geary act and have from time to me contributed liberally to the aid of fferers from disaster both in China d this country and to other public ints here.

The fact that virtually all the Chi- se belong to the Six Companies does t prevent their forming similar naller societies in every town where eir number justifies it. They may ve the same name as one of the Six Companies, but they are purely local in character. All important matters are taken to the Six Companies, whose directors are men of affairs who understand the laws of this country, employ American lawyers and take all responsibilities off the shoulders of their brethren, who know nothing of the laws of the country and care less, save where they are forced to consider them. —New York Herald.

Floating Islands of Olden Times.

Pliny ("Natural History," book 2, chapter 96) says: "There are certain islands which are always floating, as in the territory of Caecubum and of Reate, Mutina and Statonis. In the lake of Vidimonis there is a dark wooded island which is never seen in the same place for a day and night together. In Lydia the islands named Calaminae are not only driven from place to place by the wind, but may be pushed from place to place by poles. Many citizens saved themselves by this means in the time of the Mithridatic war. There are some small islands in the Nymphaeus called the Dancers, because when choruses are sung they are moved by the motion of those who keep time."

Similar stories are told by the same writer concerning the Egyptian floating island of Chemmis and the island of Delos, one of the Cyclades. The island last mentioned was the only one of the group named which escaped disaster in the time of the great earthquakes of the year 320 B. C., and Pliny, from whom most of the above facts have been gleaned, was first to point out the fact that the immunity Delos enjoyed was owing to the fact that its base had no ground connections. Pliny says, "Not a tremor was felt in Delos on that awful day when the other islands were rent asunder."

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Parallel Stories.

When Napoleon was a student at Brienne he happened to be asked by one of the examiners the following question: "Supposing you were in an invested town, threatened with starvation, how would you supply yourself with provisions?" "From the enemy," replied the sublieutenant of artillery. And this answer so pleased the examiners that they passed him without further questioning. Now, Napoleon's answer was by no means original, for one of Suvaroff's sergeants obtained promotion from the ranks by giving the very same answer when asked the very same question. Whether it was that Napoleon had read his story somewhere and luckily remembered the sergeant's answer at the right moment or whether, as one writer says anent the speech of the beef eater, "All that can be said is that two people happened to hit upon the same thought," we are unable to say, but the similarity of the anecdote is, to say the least of it, a strange coincidence.—London Standard.

A Mystery Explained.

"It's strange that you should always be so gaunt," remarked the bear to the wolf.

"Well, you see," replied the wolf, "it's all because of the part I'm compelled to play in life. You see, I'm always obliged to keep from the door until there's not a thing left in the house to eat."—Philadelphia Press.

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow blotched complexions by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe, and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. McCollum & Co.

MRS. R. WILSON.

READ THIS.

MOBILE, ALA., Dec. 24, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder," Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

Yours truly,
W. B. CLARK,
M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 620, St. Louis, Mo. Send for testimonials. Sold by all druggists.
